2 | ABOUT FERMA

FERMA was established in 1974 under its previous name of 'European Association of Industrial Insureds' (AEAI) as an international association with the aim of representing the interests of commercial insurance buyers and exchanging ideas and experiences.

Today, FERMA brings together 22 risk management associations in 21 European countries, representing more than 4700 risk managers active in a wide range of business sectors from major industrial and commercial companies to financial institutions and local government bodies.

FERMA provides the means of co-ordinating risk management and optimising the impact of these associations outside their national boundaries on a European level.

FERMA promotes communication among its members and also within IFRIMA (International Federation of Risk and Insurance Management Associations) of which FERMA is a member.

GOVERNANCE

FERMA is governed by the General Assembly and administered by a Board of Directors led by the President.

The FERMA office under the supervision of the Chief Executive Officer is based in Brussels.

The list of the Board of Directors is available on the website www.ferma.eu.

MISSION

In a world where risk, managed proactively and creatively, becomes an opportunity, FERMA's mission is to:

- Represent and defend the interests of its member associations and their members to European institutions.
- Create, collect and share knowledge, practices and innovative approaches amongst its member associations and their members.
- Improve the recognition of and raise the profile of the profession.
- Demonstrate the value that professional risk managers bring to organisations.
- Take the lead with stakeholders who have an interest in risk management.
- Represent European interests with risk management associations globally.

VISION:

**A WORLD WHERE RISK MANAGEMENT
IS EMBEDDED IN THE BUSINESS MODEL
AND CULTURE OF ORGANISATIONS.**
