It starts with the Structogram® methodological approach and moves on to cross-cutting skills and their subsequent use in business contexts in terms of "organizational behavior."
April	10	12th Global Risks Summit	Istanbul	8	8	Free	We, as The Enterprise Risk Management Association (ERMA), proudly present the 12th Global Risks Summit, one of Türkiye's most well-established and reputable platforms dedicated to risk management and strategic governance. The Summit will be held uninterrupted for twelve consecutive years, and has become a distinguished and closely followed meeting point, bringing together approximately 1,000 senior executives, board members, risk professionals, and industry representatives each year. It serves as a unique platform where leadership perspectives, strategic foresight, and institutional experience converge. This year, the Summit is structured around the motto "How to manage?"; placing the multi-layered uncertainties faced by businesses and institutions at the very center of its discussions. Beyond identifying and measuring risks, the 2026 program will explore how companies should position for resilience in an era defined by complexity and volatility. It will also examine how strategic decision-making processes must evolve and how leadership should position itself within this new equation. By convening leaders mainly of Türkiye's foremost institutions and representatives of distinguished organizations, the Global Risks Summit continues to foster high-level dialogue on resilience, governance, and sustainable value creation. We are also expecting attendance from the FERMA community. On April 10, 2026, at the Sabancı Center in Istanbul, the 12th Global Risks Summit will once again provide a powerful platform for collectively rethinking management in times of uncertainty.
April	14	Board Meeting	Copenhagen	4	4	Free	Board of DARIM
